

POND CLEANER

Eco-friendly Bacteria ISO 9001:2015 Certified

Proud Recipient-Aqua Foundation Excellence Award 2017

Bacta Cult[™]

Bioculture

POND CLEANER

- ✓ Decomposes organic sludge.
- ✓ Consumes Nutrients - N, P & Ammonical N₂ & controls algal growth & algal blooms.
- ✓ Organic growth stabilization & hence better O₂ levels, for fishes.
- ✓ Enhances treatment of floating clumps due to dead planktons.
- ✓ Reduces H₂S generation.
- ✓ Used for Water clarity Improvement.
- ✓ Reduces COD & BOD of Lake/Pond.
- ✓ Converts a dead pond / lake into a healthy natural self-regulating eco-system.

DOSAGE

- ✓ Depends upon characteristic of water and also size and shape of water bodies
